## Experience

### June 2024 - Present

Freelance | Stockholm

#### Frontend Developer

- Building performant web apps with React, Next.js, TypeScript & Tailwind CSS.
- Keeping up-to-date with the latest trends and changes in the frontend industry.
- Practicing writing tests and expanding the coverage rate.
- Practicing UI/UX design to enhance user experiences.
- Optimizing code for efficiency by implementing e.g. code splitting and lazy loading.

### November 2023 - May 2024

STIM | 6 month internship | Stockholm

#### Frontend Developer

- Redesigned an existing service using React, TypeScript, and Tailwind CSS.
- Built reusable and optimized React components for efficient UI development.
- Utilized CI/CD practices for automated builds, testing, and deployments.
- Wrote unit tests using Jest and React Testing Library to ensure code quality.
- Implemented TypeScript to ensure code robustness and type safety.
- Collaborated with senior developers in an agile environment to overcome project challenges.

### February 2017 - October 2023

Attendo Care/Stockholm Stad | Stockholm

#### Caregiver

- Provided compassionate care to dementia patients, creating a positive environment.
- Demonstrated patience, understanding individual needs in daily interactions.
- Built strong interpersonal skills through active listening, fostering trust.
- Supported patient well-being in a demanding but rewarding role.
